

## *Nostra storia 4 Pacing Guide*

In *Nostra storia 4*, you will find culturally relevant and heartfelt stories to encourage your students to reflect on their own lives and think about the world around them. This curriculum framework is ideal for both middle and high school students receiving exposure to the Italian language at the advanced level and are likely in their fourth year of language-learning. Each unit features three short stories and one longer, culminating story carefully written to introduce both high-frequency and high-interest structures. We have included stories that highlight some of the most compelling and beautiful aspects of the Italian world while instilling valuable insight into the practices and perspectives of target cultures. Our hope is that each story will not only teach students the language, but also provide you, the teacher, a springboard for some interesting conversations in class.

Each story includes varying levels of comprehension activities that provide repeated exposure to targeted structures in novel ways. Each activity is designed to prompt students to think critically about the text and demonstrate their comprehension through various modes of communication. Teacher tips for presenting target structures, such as Total Physical Response (TPR®) methods, Personalized Questions and Answers (PQAs), and Story Scripts, are provided to support teachers who are new to the best practices of teaching with comprehensible input.

To give your students an even deeper CI experience, *Nostra storia* comes equipped with engaging supplemental resources. Explore the richness of the Italian world with native speaker interviews, culturally inspired photographs, and panoramas in the *Ancora! Ancora!* section. Enjoy extensive, compelling context with the comprehensible reader *Quello che non si vede*. With *Nostra storia*, the possibilities for impactful comprehensible input are as limitless as your imagination!

### Profiles

In this guide, you will find four options for pacing the material of *Nostra storia 4*. *Nostra storia* is designed as a curriculum framework, acting as a strong foundation of language learning and knowledge intended to be supplemented where desired with materials the teacher deems most suitable for the needs of their classroom. The most full-bodied unit in *Nostra storia 4* is Unit 1, which offers teachers a comprehensive example of how they can choose to enhance the following five units. You can apply the formatting and structure of various elements present in Unit 1 of *Nostra storia 4* to all units within the title seamlessly through the use of the Voces Editor.

This pacing outlined herein is meant to be an example of what a teacher *could* do, not an example of what a teacher *should* do. Just choose the profile that best fits your teaching situation and dive in!

- **Rock Skipper:** This is the teacher who regularly dips into *Nostra storia* but also uses other instructional materials and/or has limited time with their students. The Rock

## *Nostra storia 4 Pacing Guide*

Skipper teacher will focus primarily on the *Racconti* with a quick *Storia* thrown in as an assessment and a video or *Ancora! Ancora!* activity for novelty.

- **Surface Skimmer:** A Surface Skimmer teacher uses *Nostra storia* as the backbone of their curriculum but also supplements frequently with external instructional materials and/or takes a slow approach to language acquisition. This teacher will focus primarily on the *Racconti* and the *Storia* with carefully selected videos and cultural lessons to further students' experience with comprehensible input.
- **Knee Deep:** When going Knee Deep, a teacher uses *Nostra storia* as the primary curriculum. This teacher selects the most engaging and relevant of the copious supplemental resources available in *Nostra storia* and schedules them frequently into lesson plans to vary course routines and give students a rich cultural understanding.
- **Deep Diver:** For the Deep Diver, *Nostra storia* is a treasure trove of instructional materials. In a Deep Dive, *Nostra storia* serves as the exclusive curriculum. Because students have both the time and the proficiency level, the Deep Diver incorporates as many resources as possible within every unit.

### **Flexibility**

As you look over this pacing guide, keep in mind that our pacing and timing for these tasks is approximate and may need to be adapted for different contexts. Of course, you should be prepared to adapt your instruction to spend more time on topics that your students really connect with and move on more quickly when your students' interest is low. Remember that the main goal is to provide compelling, comprehensible input. If you are talking with your students—about a story, a culture, or their personal lives—and your students are engaged, then they are acquiring language! A successful CI program shouldn't fit into neat boxes, so don't let an ideal schedule prevent you from exploring further.

Take some time to discover what might best suit your students' needs. Take advantage of the plentiful resources at your fingertips or use the Voces Editor to create activities of your own. Again, the goal of Comprehensible Input is to engage and connect with your students in such a way that they acquire language subconsciously. As long as they are engaged and you are delivering comprehensible input, do not worry too much about how fast or slow you're moving in the curriculum. Ultimately, *Nostra storia* is meant to be a responsive, student-driven curriculum framework.

For more information on how to edit material or for more ideas on how to implement the curriculum, call 800-848-0256 or email [info@vocesdigital.com](mailto:info@vocesdigital.com).
